

Equine Dental Seminar: Beyond Floating

Friday, Feb. 20th - 6:00pm

Straight from the horses mouth.

A candid and fresh look at equine dentistry.

We know you've been educated on why your horse needs to see a dentist as regularly as you do, now go beyond the basics to see what else can happen inside your horse's mouth. Equine dentistry has now expanded well beyond "floating" and extractions, to encompass all dental disciplines including oral surgery, endodontics, occlusal abnormalities, periodontics and restorative dentistry

Speaker: Dr. David Foster, VMD

Dr. Foster specializes in Equine Dentistry at New Bolton Center. Dr. Foster is an Adjunct Assistant Professor at the U of Penna, School of Veterinary Medicine with a specialty in Equine dentistry. He received his BA at Ithaca College in 1975, and his VMD at U of Penna., School of Veterinary Medicine in 1979 and is an Active Diplomat of the American Dental Veterinary College with an Equine Veterinary Dental Specialty.

FMI: Equine Exchange 610-469-0111

Doors will open at 5:30pm.
