

## **BRITISH HORSE SOCIETY** **HORSE OWNERS CERTIFICATE**

The British Horse Society is a non-profit organization focusing on the welfare of the horse and rider. While it provides training to a professional level, which is world renowned as the best in the business, it also offers courses for the amateur horse lover and owner.

One of these courses is the Horse Owners Certificate. The idea of this course is to provide horse enthusiasts with knowledge of horse care and daily management. There are 4 levels, from the basics through fairly advanced, with an optional written exam and BHS certificate.

A BHS Registered Instructor only can run these courses. Louise Beam, BHSAI is one such instructor and was the first individual in the US authorized to run these courses by the BHS.

BARN OWNERS/ MANAGERS – holding these certificates proves to your boarders that you know how to look after their horses properly.

HORSE OWNERS – these courses back up your horse care knowledge as well as increasing it, and will ensure the welfare of your horses.

HORSE LOVERS – take this opportunity to learn more about horse care and management and get to meet other equine enthusiasts.

Courses are available day or evening, weekdays or weekends at Louise's facility or at your barn or house. (There doesn't need to be a horse there.)

**If you are interested in attending these courses or for more information, please contact Louise Beam, BHSAI at [thornbec@ptd.net](mailto:thornbec@ptd.net) or at 610-385-3711.**
